Hi Thu,

I have some information for you but not everything you requested.

1) PEMY's scope of work and Phil's resume

Attached is the EPA scopes of work for the original tank expert contracts for leak detection and secondary containment from 2014 (PEMY Leak Detection Scope of Work 2014, PEMY Secondary Containment Scope of Work 2014), PEMY's proposal for those SOWs (PEMY Proposal for LD and SC 2014) and Phil Myers' resume (PEMY Phil Myers resume). I do not have a resume for Doug Schwarm, Atlas Geotechnical.

2) Atlas Geotechnical's scope of work and Doug's resume (it may be the same as PEMY's if Atlas was a sub).

Atlas Geotechnical was a subcontractor to PEMY so the scope was the same as in number 1 above.

3) Powers/Aspen Controls/ Eastern Research Group, Inc. – SOW and resumes

Attached is the scope of work for the Red Hill inspection/evaluation (Red Hill Field Inspection SOW_17Feb16-ossI). Chris Krejci's resume (ERG team leader) is attached as is Gary Power's and Jade Geronimo (Both with Powers Engineering who was a subcontractor to ERG). I do not have a resume for Ryan Hubbard with Aspen Controls.

4) Innovex SOW and Ron's resume

Attached is the Scope of Work for the Environmental support (Scope of Work Red Hill Environmental 2016), Innovex's proposal (Innovex proposal 24 March 2017) and Ron Chinn's resume (Resume_Ron_Chinn 151123)

That is all the information I have. If you need more let me know and we can try and figure out how to get it.

Hi Bob,

We probably should've asked you long ago for this but can I get the following from you....

- 1) PEMY's scope of work and Phil's resume
- 2) Atlas Geotechnical's scope of work and Doug's resume (it may be the same as PEMY's if Atlas was a sub).
- 3) Powers/Aspen Controls/ Eastern Research Group, Inc. – SOW and resumes
- 4) Innovex SOW and Ron's resume

Internally, DOH is assessing and auditing what expertise we may have utilized from contractors and have on call and what we will need in the future.

Thank you Bob!
